Boost Your Connectivity to your Digital Native

A seminar presented by

St. Bernard High School Academic Success Resource Team (ASRT)

March 18 – April 28 – May 26

7:00 p.m.

Open to the Public

Today's teenagers have formed a separate culture defined by the language of digital communication and the Internet. The development of this new culture has changed their preferred strategies for learning and communicating.

Learn ways to understand why teens do what they do. When they engage in inappropriate behaviors and acts, the idea is not to make them feel like bad kids who need to be shamed and punished.

Learn of the resources available for you.

Dr. Beth Polito, Vice Principal, along with Concern® Counselors Ms. Monica Taylor, M.S., M.F.T. and Mr. Jon B. Pease, MA, will offer parents real time strategies, support resources, and a Q&A session.
